

Photobooth Guide

Welcome to the photobooth!

It's self-serve and super easy.
Just follow these 3 steps:

**1. Tap to
Start**

2. Smile!

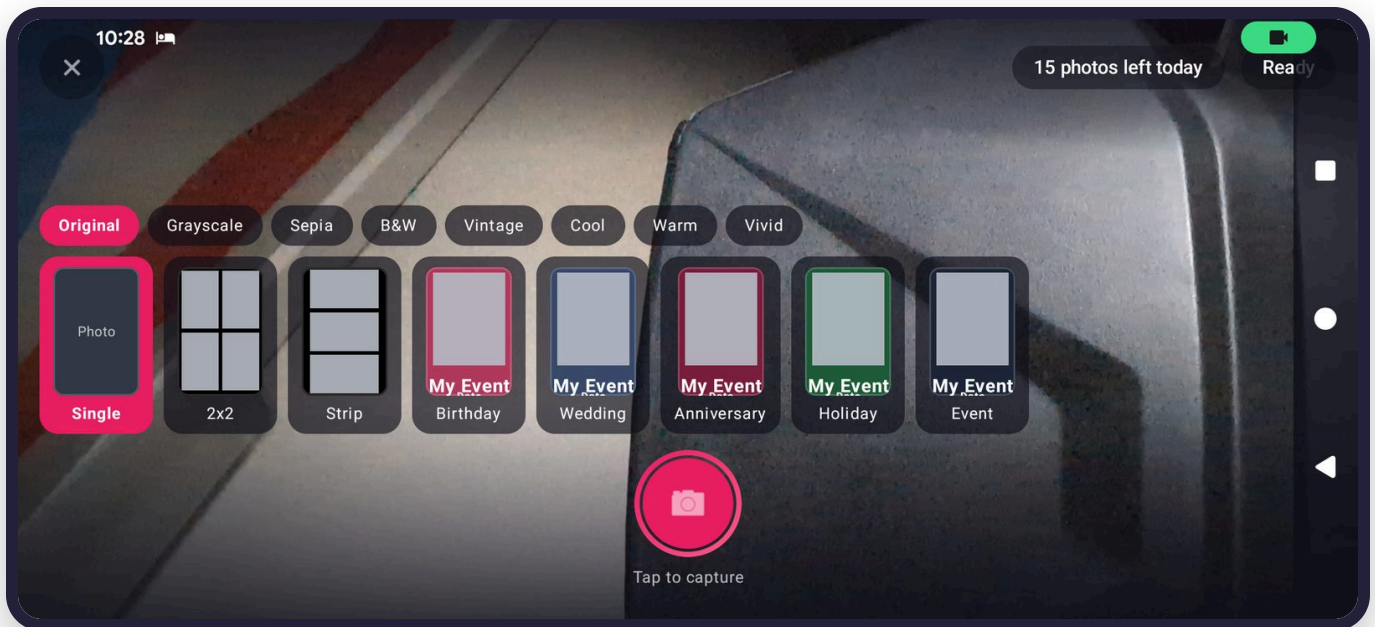

**3. Get Your
Photo**

Have fun — take as many photos as you like! 🎉

Start & Choose Your Photo

1

From the main screen, tap "**Start Photobooth.**"

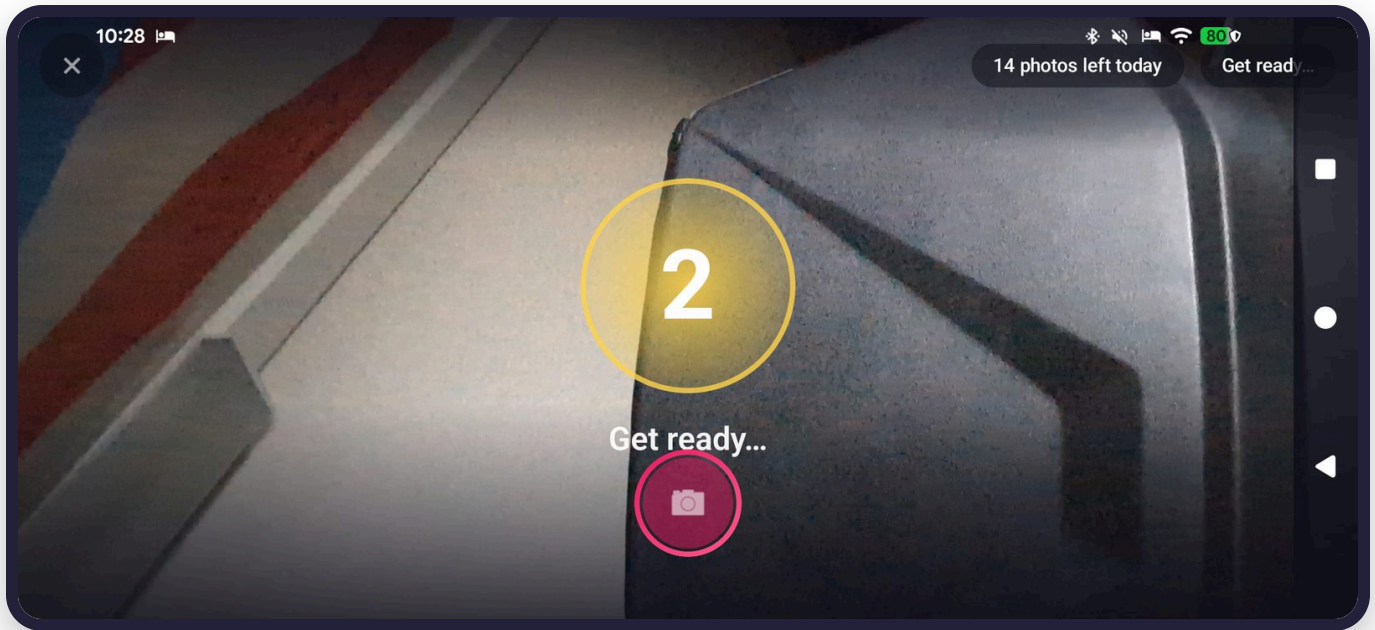

👉 **Tap the big pink button** at the bottom to take your photo. That's it!

🖼️ Optional: tap a layout at the top like **2x2** or **Strip** for a fun multi-photo frame — or leave it on **Single** for one photo.

Get Ready & Smile!

2

After you tap the button, a countdown appears. Look at the camera and strike a pose!

 You'll see **3 ... 2 ... 1 ...** then the screen flashes — that's your photo being taken!

 If you picked a multi-photo layout, it repeats the countdown for each shot automatically. Just keep smiling!

Get Your Photo

3

Once your photo is ready, send it straight to your phone!

Scan the QR code shown on screen with your phone's camera to download your photo instantly (if the host has upload enabled).

Or type your **phone number** and tap **Send SMS** — or your **email** and tap **Send Email**.

Tap **Print** to print a copy right there at the booth (if a printer is connected)!

A Few Friendly Tips

- 📷 Take as many photos as you'd like — the more, the merrier!
- 👯 Grab your friends and family for group shots.
- 🗑️ There's also a small Bluetooth remote at the booth — see the little card next to it for how to use it hands-free.
- 🙋 Need help? Ask a member of the event staff.
- ❤️ Thanks for stopping by the photobooth — enjoy!
